EDUCATION

Bachelor of Science in Agriculture (BSAg) **Sep 2022 - Oct 2026**
IUBAT- International University of Business Agriculture and Technology, Dhaka-1230

- **CGPA:** 3.99/4.00 (Class Rank 1)
- **Core coursework:** Agronomy, Soil Science, Plant Physiology, Plant Pathology, Genetics and Plant Breeding, Biotechnology, Applied Calculus, Statistics & Experimental Design, Computer Programming

RESEARCH EXPERIENCE

Research Intern **Jun 2026 - Oct 2026**
Plant Breeding and Genetics Lab, Sher-e-Bangla Agricultural University, Dhaka-1207, Bangladesh

- Conducted biochemical assays (pH, TSS/°Brix, lycopene, ascorbic acid) and ambient shelf-life trials on F_4 tomato selections.
- Analyzed the lab's 5-season repository (463 plants across parents to F_4) to identify multi-generational agronomic and inbreeding trends.
- Identified elite transgressive segregants that decoupled fruit size from internal sugar dilution, isolating lines combining high sweetness, elevated antioxidants, and prolonged ambient shelf life.

Undergraduate Researcher **Nov 2025 - Oct 2026**
College of Agricultural Sciences, IUBAT

- Conducted molecular docking, molecular dynamics simulations, and ADMET screening of plant secondary metabolites against therapeutic targets.
- Modeled stress-responsive RNA condensate hubs across *Arabidopsis*, rice, and soybean.

PUBLICATIONS AND MANUSCRIPTS

1. Rahman, M. N., Hossin, A. Y., **Talukder, S. M. I.**, Siddika, M. S., Harun-Ur-Rashid, M., Parveen, S., Islam, M. R., Hossain, M. Y., Ahmed, M., Dyuti, B. C., Tabassum, Z., & Kumer, A. (2026). Computational identification and evaluation of *Adenium obesum* phytochemicals as potential EGFR inhibitors for targeted therapy against non-small-cell lung cancer. *PLoS ONE*, 21(8), e0357096. https://doi.org/10.1371/journal.pone.0357096
2. Bala, S. K., Mahmud, M. N., **Talukder, S. M. I.**, & Noboni, J. Z. (2026). Microplastics in agricultural soils: Emerging threats to crop safety and food security. *Journal Clean WAS*, 10(1), 9–15. https://doi.org/10.26480/jcleanwas.01.2026.09.15
3. **Talukder, S. M. I.**, Dolan, M. H., Rabbi, K. H., et al. Computational evaluation of *Brassica juncea*-derived phytochemicals against PARP1 and CK2α for multitarget management of triple-negative breast cancer. ChemistrySelect. Manuscript ID: 9153339. ***Under Review***.
4. **Talukder, S. M. I.**, Hossin, A. Y. Identification of Universal Stress-Responsive RNA-Binding Protein Condensate Hubs in *Arabidopsis*, Rice, and Soybean Through Integrative Phase-Separation Modeling. **Manuscript in preparation**.

AWARDS AND HONORS

- **Prayash Syngenta Scholarship 2025** 2025
  Syngenta Bangladesh & The Daily Star
  Awarded to top-performing agriculture students across 27 universities of Bangladesh to support individuals who aspire to develop national agriculture.
- **Champion, Farm Mechanization Idea Competition** 2025
  Bangladesh Agricultural Research Institute (FMPE Division)
  Awarded for the "Agri-Preservative Hub" project, a novel solution for reducing post-harvest losses.
- **Academic Excellence Scholarship 2024 and 2026** 2024, 2026
  International University of Business Agriculture and Technology
  Awarded to students who achieved SGPA 4.00/4.00 in three consecutive semesters

LEADERSHIP AND INSTITUTIONAL SERVICE

Vice-Chairman, IEEE EMBS IUBAT Chapter **July 2026 - Present**

- Contributed to chapter leadership, event coordination, and student engagement in biological sciences

Local Director, IAAS Bangladesh IUBAT **Nov 2025 - Oct 2026**

- Directed executive operations, leading a 7-member board, 35 core committee coordinators, and an active student body of 400+ members.
- Led collaborative events with local agricultural enterprises and arranged impactful seminars focusing on knowledge exchange, research methodologies, and career preparation.

National Operational Officer, IAAS Bangladesh **Jan 2025 - Dec 2025**

- Managed national operations and reporting across 16 university-level chapters as a core member of the National Director's Quality Board

SKILLS

- **Plant Breeding & Genetics:** Quantitative Genetics, Phenotypic Selection, Genetic Variability, Trait Evaluation, Ideotype Selection
- **Plant Phenotyping:** Agronomic Evaluation, Biochemical Trait Analysis, Crop Improvement, Postharvest Evaluation
- **Computational Structural Biology:** Molecular Docking, Molecular Dynamics Simulation, Molecular Modeling, Protein–Ligand Interaction Analysis
- **Programming & Statistics:** Python, IBM SPSS, Statistical Analysis, Data Visualization
